Forecast For The United Kingdom
Issued by Met Office Exeter
at 1500 on Wednesday 20 Oct 2021

UK Outlook for Thursday 4 Nov 2021 to Thursday 18 Nov 2021:
To start the period remaining unsettled as before, but from early to mid-November increasing chance of settled weather but confidence of this is very low. Temperatures are likely to be warmer than average for most. Perhaps some colder spells and an increasing chance of frost and fog towards the end of this period but confidence of this is very low.
